Data collection on contractors is a condition of DoD contracts when DFARS 252.225–7040, Contractor Personnel Authorized to Accompany

U.S. Armed Forces Deployed Outside the United States, is incorporated. This clause applies when contractors are authorized to accompany U.S. Armed Forces deployed outside of the United States in contingency or peacekeeping operations or other military operations/exercises when designated by the Combatant Commander.

SPOT is the authorized system for contractor accountability and the only system that provides the Letter of Authorization (LOA) which is required to process through a deployment center to, from, or within the designated operational area. The LOA is also required for access to Authorized Government Services (AGS) which are assigned on the LOA for each individual contractor IAW their contract by the responsible Contracting Officer. If the data is not collected to generate the LOA, contractors would not be able to obtain AGS in their deployed locations, including access to dining facilities—limiting their ability to obtain critical life support.
